

HB 6645

What kind of horrible thing is happening to our country? No one but GOD has the right to take a life. **DO NOT PLAY GOD !!** The consequences to our country will be too great. Also physicians have taken an oath to save lives, so how in good conscience can they even consider this.

Who introduced this bill? I will pray for him to find peace in his heart and wisdom in his thoughts.

God Bless all of you and may you make the right decision.

Doris Torok
